Doiyo

DOIYO Sampo 169 Swimbait NWF

Art.-No. 3814161
EAN 4039507291617

Details

Not just another swimbait, but a bait that can achieve different running depths using different, interchangeable weight options. The Doiyo Sampo Swimbait is innovative through and through. Not only does it run seductively without much effort, you can also equip a chamber in the front area with various weights supplied and thus change the bait weight and thus the running depth of the bait. The weights are secured in the bait chamber by a flap that automatically locks into place. This swimbait offers several baits in one. The easiest way to insert the included lead weights into the bait is to place them on the open flap (note direction) and then guide them into the chamber when closing the flap. The length of around 16 cm makes the Doiyo Sampo the ideal "pike bite". The following weights are included:

- ? 1.25 g steel ball; Sink rate approx. 1 m in 6.5 seconds.
- ? 3 g lead weight; Sink rate approx. 1 m in 5 seconds.
- ? 4 g lead weight; Sink rate approx. 1 m in 4 seconds
- ? 6 g lead weight; Sink rate approx. 1 m in 3 seconds
- ? without additional weight the bait is suspended with minimal buoyancy
- ? Running depth depending on weight approx.: 0.2 - 3.0 m
- ? Bait weight (empty): 60g
